DEPARTMENT OF THE INTERIOR

UNITED STATES GEOLOGICAL SURVEY

Subject:
Irrigation Reports, etc.

WASHINGTON, D. C., Oct. 20/902.

Chief Engineer,

Department of Public Works, Irrigation Branch,

Madras, India.

Sir:

Under recent act of federal congress large appropriations have been made for planning and constructing irrigation works in the western United States. As a result this bureau is particularly interested at this time in such works as have been recently designed or built in India.

We possess details of the more important projects formulated or completed in your country prior to 1890, when I was fortunate enough to make an official tour of India and report upon your irrigation works.

I will be greatly indebted to you for any copies of selections from records or from professional or other papers giving engineering details with maps and plans of works projected or constructed since 1890. In exchange, I shall be pleased to see that copies of any of our series of Water Supply Papers, dealing with irrigation subjects, are sent you which you may desire. Also extracts from our reports on Irrigation and Hydrography.

Thanking you in advance for anything which you may be able to do for us in this way, I am,

Yours very respectfully,

H. M. Wilson

Public Works Department,
Irrigation Branch.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Under date the

No. 1420 I. of 5 Decr: 1902

To

H.M. W I L S O N Esq.,

Dept. of the Interior United States

Geological Survey,

Washington, D.C.

Sir,

I am directed to acknowledge the receipt of your letter dated 20-10-02 and to transmit a copy of Mr. Mackenzie's History of the Periyar project, which is the only project in the Madras Presidency completed since 1890. This Government is already in receipt of the Reports of the United States Geological Survey and will be glad to receive any other papers dealing with irrigation subjects.

Book sent by Registered packet post.
